

INOXAP Signs a Long-term on-site gas supply agreement with Grew Energy for their Solar Cell Facility at MP

INOXAP will be supplying ultra-high purity (UHP) nitrogen for Grew Energy's upcoming 3 GW Solar PV Cell manufacturing facility at Narmadapuram, MP

Would develop a supply pipeline infrastructure from its Narmadapuram ASU to ensure supply reliability and gas purity

Mumbai, November 12th, 2025: INOX Air Products (INOXAP), India's leading industrial, electronic & specialty gas manufacturer, has entered into a long-term partnership with Grew Energy Private Limited to supply ultra-high purity (UHP) nitrogen for Grew Energy's upcoming 3 GW Solar PV Cell manufacturing facility at Narmadapuram, Madhya Pradesh. Under the agreement, INOXAP will significantly invest & develop a dedicated pipeline network from its existing Air Separation Unit (ASU) in Narmadapuram to ensure reliable and round-the-clock supplies.

INOXAP will supply ultra-high purity Nitrogen to support the precision manufacturing needs of Grew Energy's manufacturing of Photo-Voltaic Solar Cells at their Narmadapuram facility. This long-term partnership with Grew Energy reflects a shared belief in building a stronger, self-reliant clean energy ecosystem for India. This partnership will not only meet the high-purity gas requirements of Grew Energy's facility but will also add to the region's growing industrial infrastructure. The Solar PV cell manufacturing facility is expected to begin in early 2026, in line with Grew's commissioning timeline.

Speaking about this partnership, **Diganta Sarma, Head – Strategy & Business Development, INOX Air Products**, said *"We're proud to partner with Grew Energy in shaping India's renewable energy journey. This long-term agreement marks a major milestone in bolstering India's solar manufacturing ecosystem by securing a reliable and sustainable supply of high-purity industrial gases. Such partnerships not only help nation-wide development but also contribute to the micro-level regional industrial growth which is a collateral benefit of such partnerships. As India moves closer to its Atmanirbhar Bharat and Make-in-India goals, collaborations like this demonstrate how strong industrial partnerships can drive innovation, sustainability, and self-reliance."*

Nirmal Jain, Vice President - Engineering & Projects, Grew Energy Private Limited added *"At Grew Energy, our vision is to make India a global hub for manufacturing of Solar PV cells, and we believe strong partnerships will play a major role in this journey. Having INOX Air Products as our gas supply partner builds on our confidence to achieve our vision. Together, through our shared vision, we are adding value for all our stakeholders whilst creating the blueprint of achieving the goal of a cleaner and more energy-secure India."*

This partnership marks another milestone in INOX Air Products' journey to accelerate the development of industries such as solar energy, semiconductors, and electronics; while contributing towards expanding the industrial landscape in the country. With multiple large-scale deals in the solar industry in the past year, INOXAP has positioned itself as a leading enabler for the fast-growing solar industry in India.

About INOX Air Products

INOX Air Products is the largest manufacturer of leading industrial, electronic & specialty gases in India. The company offers a unique portfolio of gases, equipment and services through a massive manufacturing capacity of 4700+ TPD of liquid gases delivered from more than 50 operating locations. With our extensive network of operations, and a vastly diverse client ecosystem, INOX Air Products empowers more than 1800 small, medium and large manufacturing organizations across dozens of sectors, enabling and empowering them on their way to achieve their vision. In our glorious journey of more than half a century, we have made massive strides on all the metrics of its business operations, by our sheer reliance on our virtues of customer-centricity, transparency and delivering value through quality. We take pride in our 1700+ strong workforce, working tirelessly across the country, unleashing the virtues of integrity and innovativeness, well complemented by their ready-to-serve spirit.

Established in 1963 by the Jain Family as Industrial Oxygen Company Ltd in Pune, Maharashtra, the Company aimed to augment and capitalize upon the rapid industrialization taking place in the country. In 1999, Air Products & Chemicals Inc., USA acquired a 50% stake in the Company, giving birth to INOX Air Products. The venture remains till date, one of the longest Indo-American partnerships in the manufacturing sector.
